Module 5 FUNBook

This weeks reading:

After asking permission to read the person, even before, begin tapping into their energy and observe what is going on with you. Take a full minute (timed) to become aware of what is going on internally before starting. Share this with your client. What did you notice coming forward?

CLIENT: Allow the reader to do their job. Be with them. Be sincere in your quest to live into your master vision.

READER: The Objective is for you to use what you learned in the Module 5 Video and MP3.

What tools are in your toolkit?

NEUTRAL OBSERVER: what did you experience? Could you notice the synchronicity? Was there a supportive feeling created? If not, what if any, missed opportunities were there?

WHAT tools were you reminded of to use, if any?
